# Compact On-Site Crushing Solution

The EcoKrush 6040 is a mobile jaw crusher that will turn our waste demolition rubble in profitable reusable materials and help you meet your environmental goal into the future. It's the perfect compromise between efficiency and compactness.

## Designed to operate directly on demolition sites

- No special transport permission needed
- Save on transport and landfill costs

## Ideal for inner cities and small contract jobs

- Engine compliant with EU/US emissions
- Quiet operation, 80dB at 20m

## Perfect for rental

- Long-lasting design with integrated Hardox plates
- Super easy to operate and serviceable with pivot engine

**Hardox Wear Plates**  
High resistant steel on work areas

**Magnet Band Conveyor (Optional)**

**Chevron Belt**  
Allows more angle to increase your pile height

**Pivotable Generator**  
Engine and hydraulics full access

**Access Points**  
Have a look inside the machine safely

## General Specifications

	Krushtech Ekocrush 6040	Krushtech Ekocrush 8055
Jaw Crusher	600mm x 400mm	800mm x 550mm
Jaw Adjustment	40mm - 100mm	25mm - 110mm
Feed Range	380mm	500mm
CSS Range	40mm - 100mm	25mm - 100mm
Production Capacity	10-50m <sup>3</sup> /h (16-64 tons/h)	30 to 140TPH
Vibrating Feeder Dims	2300mm x 1480mm - 1.5m <sup>3</sup>	2300mm x 1480mm - 1.5m <sup>3</sup>
Loading Height	2570mm	2660mm
Conveyor Discharge	2200mm	2369mm
Conveyor Width	600mm	800mm
Conveyor Unloading Distance	4300mm	4300mm
Genset P65-6	Perkins 4 cylinder diesel - Hybrid	AGCO 4 Cylinder 4.9 - Hybrid
Apparent Power	85Kva - Hybrid Power	138Kva - Hybrid Power
Fuel Tank Capacity	90L	130L
Consumption	8-10 l/h	12-16 l/h
Gross Weight	13.7 tonne	19.7 tonne

## Options & Accessories

### Magnet band

Conveyor remove all ferrous material from your rubble

### Remove control

Allow you to track the machine at distance

### Automatic feeder stop

Stop the vibrating feeder when the crusher is full

### Reverse driving

For sticky application (asphalt...) or to unlock jammed materials
